Dear Sir:

In response to the Official Action mailed April 25, 2001, please amend the identified application as follows:

IN THE CLAIMS

Please amend the Claims as follows:

1. (Amended) Biased dual lens eyeglasses, comprising:

first and second nonwire metal orbitals, each orbital having a medial zone and a lateral zone; and

a bridge connected to the medial zone on each orbital;

wherein the first orbital is moveable with respect to the second orbital, throughout a range of motion of no more than about ± 15 degrees with respect to the bridge.

17. (Amended) A nonwire biased eyeglass frame, comprising:

a left orbital and a right orbital for supporting a left lens and a right lens, respectively, each of the left and right orbitals having a first transverse cross sectional

area at a first point and a second transverse cross sectional area at a second point;
